SUMMARY

I am a graduate in Teacher Education and transit to an IT career to become a Full Stack Engineer. I am using a modern JavaScript ecosystem and other technologies to build full-stack web applications that are efficient, secure and user-friendly. I use computational thinking skills for problem-solving. My future goals include learning mobile application development and AI integration as well as teaching programming in a fun, illustrative and practical way.

EDUCATION

- ❖ **Full Stack Engineer**
Professional Certificate
Oct, 2024 - Codecademy
- ❖ **Teacher Education**
Graduation (M.Ed.)
Oct, 2018 - AIOU, Pakistan

SKILLS
